

# Wats 3010 Product Page Project Plan:

---

Week one:

- Create wireframe
- Start product image search (plain images or Pinterest embedded images)
- Initiate site text

---

Week two:

- Compile product images and upload (decide between plain images or Pinterest embedded images)
- Initiate HTML/CSS files
- add content text and images
- Finalize header and nav bar
- Initialize reviews and call to action (contact us section)

---

Week three:

- Finalize animation and video decisions
- Finalize reviews, call to action, animation, content and styles
- Add and finalize footer
